1250HS

Spindle counter

High function, heavy duty spindle counter
for banded or unbanded currency

The 1250HS is a high function, horizontal feed spindle counter for processing banded or unbanded currency. Containing the latest technology from Glory, the 1250HS is ideal for heavy duty applications where speed and accuracy are paramount.

Glory Global Solutions is a World Expert in cash management, delivering technology and solutions that provide security, productivity and innovation to our customers. These solutions are supported by the technical expertise of GLORY Group of Japan, the pioneer in development and manufacture of money handling machines across the financial, retail, vending machine, amusement and gaming industries for nearly 100 years.

Across the world, Glory Global Solutions is trusted by thousands of organisations to ensure their cash is managed securely and efficiently whilst delivering the ultimate in productivity. 2,500 professionals, including over 1,300 service and support staff and 350 business partners cover over 128 countries delivering these solutions – wherever money moves.

Improved accuracy

With variable speeds of up to 40 notes per second, the 1250HS was developed in response to the need for heavy-duty processing of poor and good quality notes.

Simple to use, the 1250HS is equipped with three modes of operation:

1. Count—provides a continuous count of unknown bundle quantities
2. Batch—creates a smaller batch from a large note bundle
3. Verify—checks a known quantity in a bundle

All three modes of operation have a 'TOTALS' facility, which accumulates the total number of notes counted. Notes can be counted by value if required.

Easy to use

A simple one touch keypad with a large backlit LCD display aids efficient operation. Auto or manual start can be configured to switch on, in whichever mode is used most frequently. In addition, the default batch or verify quantity can be stored in memory.

Intelligence

An advanced re-pick facility continues to re-pick mint and poor quality notes up to eight times, ensuring maximum efficiency by minimising stoppages. A sliding cover can close over the counter mechanism during operation.

Small and portable

Ideal for organisations where space is at a premium. The compact machine can be used on a table top or on a pedestal enabling easy movement between workstations.

1250HS Technical Information

Processing speed	25-40 notes per second
Document size range	50 x 100 mm to 100 x 200 mm
Capacity	Up to 150 notes
Dimensions (H x W x D)	285 x 345 x 430 mm
Net Weight	Counter: 20 kg Pedestal: 36 kg
Power supply	230V AC
Power consumption	350W
Manufacturing standards and approvals	CE, GOST, FCC
Options	Pedestal Evolution Remote Display
