ProNote 200

Banknote Counter

Comfort und transparency you can count on

Make your cash flow.

The ProNote 200 is a banknote counter which counts mixed banknotes at a speed of up to 1,500 banknotes per minute, with full counterfeit detection as certified by the European Central Bank. The user-friendly interface of **ProNote 200** enables a very easy and convenient operation.

... a single button push is all that is needed:

- ① to switch between available currencies
- ② to switch between the count modes
- ③ to report with a detailed list of all counted notes (piece and value) and to print the counting results

Currencies

Value counting: EUR and GBP
other currencies on request

* Full detection of all safety features is only possible for the euro, as other currencies, for instance, do not have a magnetic code

Count modes

Mix Mode:
detecting and value counting of mixed banknotes

Single Mode:
detecting, piece and value counting of a single denomination
(all the notes must have the same length and height as the first note counted)
